

Oeco GARDEN LODGES

Garden Lodges

The Classic Garden Lodge features a traditional apex roof design, offering timeless style and functionality.

It comes with either 2.4m sliding or 1.5m double patio doors, plus an opening window for ventilation.

Under permitted development, 4m-high garden lodges must be placed at least 2m from any boundary.

Timber Frame Construction

All our garden lodge buildings are crafted with traditional timber-framed construction, using heavy-duty solid structural timber for the walls, floor, and apex A-frame roof. The floor timbers are pressure-treated with Tanelith E wood preservative for added durability. Fully insulated to Building Regulations, with a vapour barrier and double air-vented walls, these lodges are designed for year-round use.

Professionally Plastered Interior

Each garden lodge comes with luxury plasterboarded and skimmed walls and ceilings, finished to the same high standards as a new home.

A professionally plastered interior provides a warm, elegant look, while also enhancing sound insulation and energy efficiency for year-round comfort.
