

Oeco GARDEN PODS

All our prices include delivery and full on-site installation by our expert installation teams.

Choose from a range of sizes and external cladding options, including Fibre Cement, Smooth or Woodgrain Composite Wood and Thermowood Timber.

Composite wood is available in a variety of colours, including: Blue, Charcoal, (Dark Grey), Coffee, Cream, Ivory, Light Grey, Olive Green, Redwood, Teak, Walnut, and White.

The 100mm structural timber walls and 120mm Tanelith E Treated floor sections are insulated with 75mm Knauf RS45 thermal acoustic insulation for superior warmth and soundproofing. Our garden pod roofs feature a highly insulated trapezoidal roof panel system, with a 120mm panel containing PIR rigid thermal insulation for maximum energy efficiency.

For added protection, an exterior waterproof vapor barrier prevents moisture infiltration, keeping the pod dry, mould free and durable year-round.

Our fully insulated composite garden pod range provides you with a high quality garden space solution which will last a lifetime.

We utilize high-quality, sustainable materials that not only enhance the aesthetic appeal but also guarantee long-lasting durability.

A composite garden pod is the perfect addition to your garden, providing a space where you can relax, work, or entertain, no matter the season.

Inside, the walls are lined with 11mm OSB timber, a stronger alternative to plywood, perfect for garden pod interiors. The OSB board can be left natural, stained, or painted to match your style and preferences.

Each pod includes a 2.4m-wide sliding patio door and an 850mm x 400mm opening window, combining style with practicality.

We invite prospective clients to visit our two large indoor showrooms to experience our products firsthand. Featuring 12 fully furnished garden buildings, including pods, rooms, offices, sheds, saunas and annexes, you can explore various sizes, designs, and options to compare.

Our knowledgeable team will guide you through the showroom, answering questions and offering insights into the design, materials, and features that make our garden pods a top choice.
