

Oeco GARDEN PODS

Our fully insulated composite or timber clad garden pod range provides you with a high quality garden space solution which will last a lifetime.

We utilize high-quality, sustainable materials that not only enhance the aesthetic appeal but also guarantee long-lasting durability.

A composite or timber clad garden pod is the perfect addition to your garden, providing a space where you can relax, work, or entertain, no matter the season.

All our prices include UK mainland delivery and full on-site installation by our expert installation teams.

Choose from a range of sizes and external cladding options, including Smoothgrain and ProClad Woodgrain composite cladding, or Thermowood and Western Red Cedar timber cladding.

Our composite cladding materials are available in a variety of different colours. You can also mix any external claddings.

Inside, the walls are lined with 11mm OSB timber, a stronger alternative to plywood, perfect for garden pod interiors. The OSB board can be left natural, stained, or painted to match your style and preferences. A fully plasterboarded and plastered interior is also available.

Each garden pod includes a 2.4m-wide PVCu sliding patio door and a PVCu 1200mm x 500mm opening window, combining style with practicality.

The 100mm structural timber walls and 120mm Tanelith E Treated floor sections are insulated with 75mm Knauf RS45 thermal acoustic insulation for superior warmth and soundproofing. Our garden pod roofs feature a highly insulated trapezoidal roof panel system, with a 120mm panel containing PIR rigid thermal insulation for maximum energy efficiency.

For added protection, an exterior waterproof vapor barrier prevents moisture infiltration, keeping the pod dry, mould free and durable year-round.

Each garden pod comes with a complete electrics package, including a consumer unit, 4 x double electrical sockets, LED light panel and a light switch.

A qualified electrician will test the internal wiring and issue a Part P electrical certificate, ensuring it's ready for connection to your home's mains supply by either your electrician or ours (if pre-arranged).
