

Oeco GARDEN PODS

Designed for comfortable year-round use, our Garden Pods are fully insulated throughout the walls, roof and floor and include high-quality laminate flooring, a complete electrics package and energy-efficient double-glazed anthracite PVCu doors and windows.

Whether you're looking for additional living space, a dedicated garden office, gym, hobby room, games room or somewhere to simply relax and unwind, an Oeco Garden Pod provides a versatile and affordable solution.

The internal walls are lined with robust OSB timber board, creating a strong and practical interior. The OSB can be left with its natural timber appearance or painted to create your preferred finish, while also providing a substantial surface for attaching shelving, cupboards and storage.

Each garden workshop includes a 2.4m wide PVC-u Sliding patio door and a PVC-u 850mm x 400mm opening window, combining style with practicality.

Our Oeco Garden Pods are our Essential Garden Room and Garden Office range, designed to provide all the important features you need for a comfortable, practical and fully insulated garden space at a more affordable price.

By focusing on the essentials and simplifying some of the additional finishes and specification found within our Premium ranges, we've been able to create a high-quality garden room or office at a significantly lower price — without compromising on the features that matter most.

Choose from a selection of sizes and high-quality external finishes including Smoothgrain Composite, ProClad Woodgrain Composite, Thermowood and Western Red Cedar.

With foundations, professional installation and a 10-year structural guarantee included, our Garden Pods offer the essential features of an Oeco Garden Room or Garden Office at a more accessible price.

Every Garden Pod includes a complete electrics package, providing the lighting and power you need to start enjoying your new space. The electrical installation is completed and Part P certified by a qualified electrician.

As standard, this includes an LED light panel, light switch, 4 double electrical sockets and a consumer unit, with all internal electrical wiring neatly concealed within the walls for a clean, professional finish.
