

# Oeco GARDEN SHEDS

Each garden shed comes as standard with a 0.9m-wide anthracite (dark grey) PVCu entry door, reinforced with aluminium for durability and security.

Fitted with insurance-approved locking mechanisms, these high-security doors and locks help protect your valuable items.

For added customisation, optional double patio or sliding doors, opening windows, and fixed glass panels are available.

Each garden shed features fully insulated walls, floor, and roof, ensuring heat retention in winter and a cool space in summer.

The floor and wall sections contain 50mm Knauf RS45 thermal insulation, while the roof is made from a 50mm fully insulated trapezoidal aluminium panel, finished in Anthracite (dark grey) outside and white inside. For added protection, an exterior waterproof vapor barrier prevents moisture infiltration, keeping the shed dry, mould free and durable year-round.

Our premium quality fully insulated garden sheds provide a secure, damp-free storage space for all your valuable belongings.

Safely store bicycles, electric cycles, motorcycles, garden tools, power tools, exercise equipment, children's toys, garden furniture, and cushions—without mold!

Keep BBQs, sports gear, camping equipment, and golf gear protected from deterioration, rot, rust, and theft. Many clients also opt to use our fully insulated garden sheds as a comfortable hobby room or workspace.

All our garden buildings are built with traditional timber-framed walls and floors for strength and durability.

The walls are made from solid 75mm structural graded timber, while the floors feature 100mm structural graded timber frames, Tanelith E treated for longevity.

Inside, the walls are lined with 11mm OSB timber, an engineered board stronger than plywood, making it ideal for garden shed, workshop or office interiors.

All our prices include UK mainland delivery and full on-site installation by our expert installation teams.

Choose from a range of sizes and external cladding options, including Fibre Cement, Smooth, Woodgrain, Woodgrain Pro Clad, Slatted Composite Wood and additionally in Thermowood or Western Red Cedar timber.

We believe that quality should be at the heart of everything we do. That's why we are proud to offer a 10 year structural guarantee on all our garden shed buildings.
