

Oeco GARDEN WORKSHOPS

All our prices include UK mainland delivery and full on-site installation by our expert installation teams.

Choose from a range of sizes and external cladding options, including Smoothgrain and ProClad Woodgrain composite cladding, or Thermowood and Western Red Cedar timber cladding.

Our composite cladding materials are available in a variety of different colours. You can also mix any external claddings.

The 100mm structural timber walls and 120mm Tanelith E Treated floor sections are insulated with 75mm RS45 thermal acoustic insulation for superior warmth and soundproofing. Our garden workshop roofs feature a highly insulated trapezoidal roof panel system, with a 120mm interlocking panel containing PIR rigid thermal insulation for maximum energy efficiency.

For added protection, an exterior waterproof vapor barrier prevents moisture infiltration, keeping the workshop dry, mould free and durable year-round.

Create a dedicated space for DIY, hobbies, repairs and projects with an Oeco fully insulated Garden Workshop – a high-quality, purpose-built workspace designed for comfortable year-round use.

Far more than a traditional garden shed or workshopshed, every Oeco Garden Workshop combines heavy-duty timber frame construction, fully insulated walls, floor and roof, secure double-glazed doors and windows, heavy-duty laminate flooring and a complete electrics package.

Inside, the walls are lined with OSB timber, perfect for garden workshop interiors. The OSB board can be left natural, stained, or painted to match your style and preferences. Strong OSB-lined internal walls also make it easy to add workbenches, shelving, cupboards and tool storage.

Each garden workshop includes a 1.5m wide PVC-u French patio door and 2 x PVC-u 850mm x 400mm opening windows, combining style with practicality.

Each garden workshop comes with a complete electrics package, including a consumer unit, 4 x double electrical sockets, LED light panel and a light switch.

A qualified electrician will test the internal wiring and issue a Part P electrical certificate, ensuring it's ready for connection to your home's mains supply by either your electrician or ours (if pre-arranged).
